

Funny thing about training four hours a day,
having a perfect diet and
riding a bike that's worth more than my car.
None of them help me see the finish line
as clearly as my KBco lenses.

THE POLARIZED LENS COMPANY

Vision shouldn't be an obstacle

My mom told me never to stare.

Not at the TV. Or at the sun.

Or at strangers who are six-foot two
with gorgeous eyes and a playful smile.

My mom never had KBco lenses.

THE POLARIZED LENS COMPANY

Vision shouldn't be an obstacle

Single Vision Wrap™ from KBco

Great Optics for oversized Fashion And Performance Wrap Frames. KBco, The Polarized Lens Company has done it again. The polarized Single Vision Wrap™ is a comprehensive solution. It's unique use of asphericity delivers precise optics and an expansive viewing zone in oversized wrap frames for Rx's ranging from -6.00D to +4.00D. Single Vision Wrap has six different aspheric designs. Each is tailored to a specific Rx range. And, only Single Vision Wrap comes in a blank size large enough—83mm with 5 mm of decentration—to take on oversized wrap frames. Single Vision Wrap is available in KBco True Grey, KBco Grey C and KBco Brown C and features our Super WearGard coating. Best of all, the Single Vision Wrap is available from all full service laboratories.
